6247 Mail Order Price List for Fall 1910 and Spring, 1911 of

Stark Bro's Nurseries & Orchards Company

General Offices: Louisiana, Missouri, U. S. A.

BRANCH NURSERIES: Girard, Pa., Dansville, N. Y., Starkdale, Mo., Fayetteville, Ark., Perry, Ohio, Rockport, Ill., Marionville, Mo., Huntsville, Ala., Rolla, Mo., Twin Falls, Idaho, (Snake River Valley Nursery); Hamilton, Mont. (Bitter Root Valley Nursery); Wenatchee, Washington, (Columbia River Valley Nursery); Wapato, Wash. (Yakima Valley Nursery.)

Main Packing Houses and Shipping Stations at Louisiana, Missouri, on Chicago & Alton and Chicago, Burlington & Quincy R'ys.

STARK CHALLENGE POINTS

We pay freight on everything as priced herein, to any R. R. Station in United States and to the U. S. line on shipments to foreign countries on orders of \$10.00 net or over—all cash before shipment.

We also pay freight on orders amounting to \$10.00 or more where one-fourth or more cash is remitted with order, balance to be paid on arrival.

We Box and Pack Free—bear cost of boxes, bales, moss, fibre, etc. Expensive, but good packing pays—pays customer, pays us.

Paper line all boxes at all seasons—another costly item, but it is safe-guard against both drying out and freezing.

Guarantee Safe Arrival—orders lost or spoiled in transit we refill free.

Give buyer his choice of sorts. If requested, we make selections, using our best mind and experience in his interest.

Give wholesale prices and ship direct. Ours are the lowest priced Nurseries on Earth for sterling quality

trees of best varieties. Sent world wide during more than 85 years.

Give 30 trees of one variety at the 100 rate; 300 of a kind (as 300 Apple or 300 Plum, etc., not less than 10 of a variety) at the 1000 rate; over 10 and less than 30 at 10 rate. Less than 10 always at each rate. Please note where no 1000 rate is quoted that 100 rate governs.

Guarantee trees true to name, and use utmost care to avoid mistakes, but should any prove untrue to label we will, upon proper proof, replace the trees free; but are liable no further. Our just and liberal dealing during 85 years is our chief guaranty to customers.

We attach Entomologist's certificates to all shipments. Our Nurseries have been annually inspected and found free from San Jose scale and other injurious insects and diseases.

Guarantee trees of highest quality—you can't get better anywhere at any price. Stark Trees are grown to last and bear the best fruits known. Young, healthy, thrifty 1 or 2-yr. stock, even if a small size, is very different from small, old, rough, stunted trees culled from 4 and 5-year blocks. Remember these guarantees are worth something—backed by a record of 85 successful years in business.

We uniformly tie trees in bundles of 10; Grape Vines and Small Fruits in bundles of 25; and as unbroken bundles are handled at less expense we can thereby offer these unusual concessions.

Three sizes of 2-yr. fruit trees are graded in our packing houses XXX is the size sure to please. XX size excels "1st-class" of some nurseries. Each size is first-class of that size; no second class, defective or cull trees go in any size; but to the brush pile.

EXAMPLE: In an order for 320 Apples—100 Black Ben XX, 2-yr., 80 Delicious 3 to 5 ft., 1-yr., 120 Jonathan XX, 2-yr., and 20 assorted (1, 2, 4, 7, etc., of a sort), latter 20 will go at Each rate, the 300 at 1000 rate.

Different kinds, as 150 Apple and 150 Plum, cannot be taken together to make up 300 so as to obtain 1000 rate.

Our 1-yr. trees are graded into two sizes—3 to 5 ft. and 2 to 3 ft. Each size full and strong; our 2 to 3 ft. size equals the largest 1-yr. of many nurseries.

25% Discount to Mail Order Buyers

Will be allowed from the prices quoted in this list, for prompt and direct orders—all cash before shipment.

This price list together with the discount is our personal mail order salesman in your territory, and which opens the way for every tree planter to secure Stark sterling quality trees at the lowest possible price.

Bear in mind that in addition to this 25% discount we box free and prepay freight. Also keep before you the fact that we guarantee safe arrival and give liberal premiums.

SPECIAL—We give special prices for large quantity orders, buyer paying freight. Write for estimate.

FALL PLANTING

There are many advantages of fall planting over spring planting—the chief one being that spring planting comes at a time when most men are busy with other things. Trees planted in the fall become firmly established in the ground before winter sets in and make far more growth the following spring than spring planted stock. Fall planting can also be done after other work has been completed—can be done better, cheaper and with better results. All trees may be planted successfully throughout most all fruit regions all during the winter wherever the ground is not frozen. Our special packing and shipping facilities, refrigerator car services, all during winter absolutely insures safe delivery of stock to you.

IMPORTANT:—Throughout the price list varieties under all classes of stock are arranged as nearly as possible according to the season of ripening. Earliest ripening sorts are at the head of the list. For example: Stark Star, Henry Clay and Liveland Raspberry are the earliest ripening apples, while Champion, being the latest keeper, is the last one in the list of apples. Varieties recommended by us as most valuable for family use or for profit are starred, thus (*).

Following the name of each variety are capital letters which indicate the region in which it is recommended that that variety be planted. N stands for north, NN far north, C central, and S south. Thus a variety followed by NCS may be planted either north, central or south. CS would indicate a variety adapted only to central or southern planting; NNC, central to far north; NNCS, south to far north; and S, south only.

SEASON OF RIPENING—Throughout the price list varieties under all classes of stock are arranged as nearly as possible according to the season of ripening. Earliest ripening sorts are at the head of the list. For example: Mayflower and Red Bird Cling are the earliest ripening peaches while Bonanza, being the latest keeper, is the last on the list of peaches.

ALTON—It may be of interest to you to know that nearly all the peach trees were killed in this vicinity last winter. I had Crawford, Illinois, Champion, Elberta, Bokara No. 3, ALTON, Carman, and Russell Neb. All dead but ALTON. It came through in good shape.—M. B. Reed, Union County.

ILLINOIS—My STARK EARLY ELBERTA peaches were of a fine quality and flavor and the trees made a vigorous growth and I have cut them back one-half of each year's growth, thereby making a strong body.—E. Conner, Perry County.

ILLINOIS—EARLY ELBERTA ripened with Carman. Fruit large, high colored, better in quality than Elberta. 50 trees of Carman in same orchard bore not a single specimen.—Edwin H. Riehl, Horticulturist, Experimental Station, Madison County.

IDAHO—DELICIOUS I have in bearing. Can not be improved for a dessert apple; keeps until May—does well.—N. C. Thompson, Kootenai County.

MASSACHUSETTS—I send by mail a DELICIOUS. Owing to the trees being heavily loaded and a very dry summer the apples ripened rather small.—Wm. F. Thayer, Hampden County. [Note: The specimen, while small, had wonderful color and all the aroma and superb flavor of the Delicious.—Stark Bro's]

WASHINGTON—We take pleasure in informing you that all of the DELICIOUS and King David trees planted on the Hazelwood Tracts last spring made better than a 99% showing.—Hazelwood Irrigated Farms Co., by H. C. Lane, Spokane County.

COLORADO—I saw your ad in the Fruit Grower concerning DELICIOUS apples. I set out 25 of your DELICIOUS in 1900. They have made fine growth and for 5 years have been a sure cropper. Have sold all I had for \$3 per box when Jonathans were selling for \$1.50. No apple in existence excels them for quality. Anyone setting a commercial orchard should plant heavily of STARK DELICIOUS for they will make no mistake.—Gus Wetzel, Garfield County.

UTAH—The KING DAVID is a dandy for this place. It is all you claim and "more too."—J. C. Lemon, Emery County.

IOWA—I am of the opinion that you have not told half the good points of the KING DAVID. I am sure it is to be the one great money maker for growers in certain sections—on the whole the second best apple in all America. Delicious first, of course.—Thos. F. Rigg, Hardin County.

MASSACHUSETTS—I found in a market in Brockton, Massachusetts, the handsomest apples I have ever seen—the KING DAVID. They bring 10 cents each.—H. W. Mann, Norfolk County.

WASHINGTON—I consider the KING DAVID apple a very fine one. Its delicious flavor and beautiful color combined make it very attractive. It hangs on the tree better than most all other varieties and is a splendid keeper.—Robt. Bottger, Chelan County.

TEXAS—STAYMAN WINESAP takes precedence over all the other Winesaps. The quality is unexcelled—size and color most desirable—the perfection of highest apple standard.—E. W. Kirkpatrick, Collin County.

WEST VIRGINIA—BLACK BEN is all right here, good tree—bears early and gaining friends fast.—C. S. Scott, Monroe Co.

MINNESOTA—BLACK BEN makes a good growth and the wood this year is not discolored by the cold.—C. M. Jensen, Freeborn County.

IOWA—Do you know that in New York there is far more money in raising the BLACK BEN than the Baldwin? It would be hard to make people believe it now, but the day is coming when they will know it. For the fruit stand trade it beats them all.—Thos. F. Rigg, Hardin County.

WASHINGTON—The splendid color, long keeping qualities and extreme productiveness make it one of the most profitable sorts grown. Other sorts have their "lean and fat years," and occasionally demand a year of rest. BLACK BEN is always "there with the goods." It is also a success here with little or no irrigation. Outclasses Gano and Ben Davis in every respect.—O. M. Brooks, Chelan County.

MISSOURI—You can not say too much for the ALTON peach for this locality, where we are almost sure to get a late frost, which kills Elberta and like varieties. We got more for our ALTON peach than we did for Elberta. ALTON stands shipping well.—H. B. Pepmiller, Ripley County.

ILLINOIS—ALTON as usual at the top of the list in its season for hardness and general satisfaction.—Edwin H. Riehl, Horticulturist, Madison County.

UTAH—I am confident the EARLY ELBERTA will prove valuable very far north, as with us it is harder than any other variety. There has been no weakness of the foliage.—S. G. Mason, Davis Co.

Stark Year Book—send 10 cents for postage—the best practical book ever published on fruit growing.

IDAHO—The trees arrived in splendid condition. Inspector Adams declared them fine—as good as any he has seen.—H. F. Price, Clear Lake Orchard Co., Lincoln County.

TEXAS—We have raised the finest fruit from your trees ever grown in this part of the state. We tried orchard trees from local nurserymen, which can not be compared in quality with yours.—H. H. Altgelt, Comal County.

Stark Year Book—send 10 cents for postage—the best practical book ever published on fruit growing.

| Duchess de Orleans, deep pink | 50 | 40 | |
| Officinalis Rubra, early red | 50 | 40 | |
| Queen Victoria, white | 50 | 40 | |

Fall Buying

MISSOURI—It is quite proper you should know something of those you deal with so generously, be they pomologists or common grain farmers. I belong to the latter class in a small way, with a love for fruit, especially apples and grapes, and try to keep a small orchard for family use. I like the trees I got from the Stark Nurseries the best of any I have ever seen. They come into bearing young and are true to name. I have finally adopted this plan, to buy what I need from Starks. I tell my neighbors I consider they will make no mistake if they will buy from Starks. The trees I set last fall which I got from you are all right now and I am glad I set them out in the fall as spring works are crowding just now. Right here, I wish to thank you for the Stark Year Book. It is my text and guide book and meets my every demand.—Geo. Hanson, Monroe County.

MICHIGAN—DELICIOUS is making a good record here. Trees planted spring 1900 fruited 1905 and have fruited every year since. Tree is a beautiful grower and requires but very little trimming. It is also very hardy, not being hurt in the least by the severe winter of 1904 when the thermometer registered 40 degrees below zero. Over half of the trees in the orchard were frozen to the ground.—John Versnyder, Leelanau County.

WEST VIRGINIA—If you could only succeed in substituting DELICIOUS and STAYMAN WINESAP for the numerous progeny of Ben Davis in dealing with your New England customers you would confer a lasting favor on the lovers of good apples.—W. M. Munson, Monongalia Co.

Can furnish medium grade trees at $\frac{3}{4}$ and light grade at $\frac{1}{2}$ price quoted above.

KANSAS—Received the trees all right and I don't think the e was ever a finer lot of stuff. I want you to know I appreciate your effort. You can depend on my being an "advance agent for Stark Bro's."—T. B. Coppage, Bourbon Co.

WASHINGTON—The trees I got from you last year are all growing except one. They were certainly fine, and here I wish to thank you for sending me such a nice lot of extras. You don't get any extras from nurserymen out here. You do well to get what you order.—Mason Brown, Whitman Co.

IOWA—I have 90 apple trees out. I have only two acres of ground so don't have room for so very many. About half of my trees are of your stock and they are fine. I haven't lost but one or two of your trees, but I have quite a number of dead ones bought from other nurseries, and I want to set yours in where they were.—Mrs. A. Dell, Jackson Co.
